

Attributes and Identifiers

Panel discussion

EuroCAMP 2008 Stockholm

Problem scope

- Semantics
 - *What does it mean?*
- Syntax
 - *What does it look like?*

What was the problem again?

- Multiple choice of syntax for the same semantics
 - *Same* SAML attribute as OIDs or URNs or...
- Where is the documentation?
 - what does 2.5.4.0 and 1.3.6.1.4.1.1466.115.121.1.38 have in common?
- Where is the authoritative information?
 - 0.4.5.2.oid.arpa anyone?
- Where is the consensus?

Panel Go for throttle-up!

- Who will define SP-800-63 identifiers for eduPersonAssurance?
- Should we use URNs or OIDs or URLs for:
 - SAML entityIDs (or SAML EntitiesDescription)
 - SAML attributes
 - Entitlements (eduPersonEntitlement)
 - LoA
- What does scope mean and how do we keep it unique (x-fed!)
- How should we map scoped identifiers in the N:th tier?
